### FLEXIBLE PROGRAM

lectures are divided into groups depending on the different needs based on:  
**PERSONAL WORK SCHEDULE** **PAST DRIVING EXPERIENCE**

#### 1. For adult drivers

These are people with tight work schedules who can only devote time for driver education at lunch hours and in the evening. They often need refresher courses or defensive driver courses.

For these individuals, we have compressed courses designed to get the driver back onto the street quickly but safely. Also anyone with a drivers' license who needs to improve their skills

#### 2. For Beginners

We offer courses throughout the week. these courses devote more time to the mechanics of driving

#### 3. Our future commercial drivers

Are those who will require courses that are more technical in nature

#### 4. For UBA students

They will be able to attend classes during normal working hours. For these students, a more detailed syllabus with the instructors is necessary
